

The Torah and the New World Order

Introduction

The Torah, written approximately 3,330 years ago, as of 2018, is the most important document of Judaism, supposedly. Contained within the Torah are instructions and commandments from their “god” (aka the authors of the texts) pertaining to various aspects of society, business and politics.

When analysing the the collective nature of jews today, a clear and definitive parallel can be drawn between their social, business, and political behaviors, and the instructions contained in the books of the Torah.

The jewish Torah is nothing more than a thinly veiled guidebook for a supremacist, genocidal, global conquest. When combined with cross references from the ‘Talmud’, or ‘Oral Torah’, the true nature of this supremacist system, and of the jewish races becomes quite apparent.

What better supporting evidence for the great New World Order conspiracy than the holiest books of the orchestrators?

Puppet governments and parasitism

The Torah states that the kings of non-jews will be slaves to jews (**Isaiah**), that the jews will rule over great and prosperous cities that were built by non-jews, and that the jews will reap wealth of all other nations, while never working to create it themselves (**Deuteronomy**, **Isaiah**).

Conclusion

The message conveyed to the jews in the Torah should be compared to the messages conveyed in Christian Bible. Notice that the fundamental message of the Torah is one of aggressive conquest, racial supremacism, vengeance, war, and subversion; whereas the fundamental message of the Christian Bible is a message of racial-blindness, gender-blindness, submission, subservience, forgiveness, and peace -- Slave Morality.

Given the evidence available, and considering that the New Testament texts were originally written by jewish “converts” to Christianity, it is not too far-fetched of an idea to suggest that the Christian Bible was disseminated among non-jews (often by way of war and upon threat of death) to program them for slavery at the hands of the jew. After all, “pagan” is a term derivative of ‘pagani’, which is Latin for ‘gentile’.
